

## RP-EyeP Guard NVR

- > Connect up to 8 cameras per system
- > 4 Plug-and-Record PoE camera ports
- > 4-step configuration wizard
- > Compact and rugged case
- > Smartphone, tablet and PC remote access
- > Full definition video output - HDMI (1920x1080)

The transition from analog and/or implementation of megapixel IP video surveillance for retail, residential and small businesses can be difficult and costly from both an installation and equipment standpoint. Until now. Meet the RP EyeP Guard.

These easy to manage NVRs deliver centralized video management with the features and capabilities to prevent theft, protect assets, monitor customer and employee activity and provide remote connectivity without the complex installation, setup and learning curve common to similar systems. The RP EyeP Guard's **Plug-n-Record** camera connectivity and **4-Step Configuration Wizard** can get you, the end user and/or installer up and running post-cabling in less than 5 minutes.

- **RP EyeP Plug-n-Record:** Automatically searches and connects RP EyeP cameras connected to the 4 onboard PoE network ports located on the back of the RP EyeP Guard. **No scanning software. No manual IP addressing or network setup required.**
- **4-Step Configuration Wizard:** A 4 step wizard guides you through initial settings, network, camera and record schedule setup. **No manual needed. No training course required.**
- **EyeP VRM (Video Redundancy Manager):** Video is 'mirrored' (RAID 1) on the second hard drive\* and therefore if there are any drive problems or failures (caused by power spikes, etc.), video recordings are not lost and can be accessed from the other drive.

\*requires 2 hard drives

Retail, Residential & Small to Medium Sized Business Challenges	The RP EyeP Guard NVR Delivers:
Limited space	Compact and rugged case (4" (w) x 8.75" (d) x 5.75" (h)) can easily fit into compact spaces or on a desk (operated by mouse and/or IR remote, no keyboard needed)
Setup and maintenance costs	Plug-n-Record and 4-Step Configuration Wizard minimizes setup time with zero maintenance required
Owner not always on premise	Smartphone (iPhone™, iPad™, Android™), tablet and PC remote access
Unexpected downtime	Built-in health monitoring alarms/notifications
Expandability	Connect up to 8 cameras per system
System access security	Limit access to all or certain features via the user account management feature.
Multiple locations	Free remote viewing and management software
Installation	Installation time and costs are minimized whether the system is installed by an end user or security systems installer
Viruses, malware, etc...	Linux™ based operating system has a higher degree of protection against viruses, malware, spyware, hacking etc... than similar systems
Backing up video	Search by time, motion, camera, etc... video can be easily backed up to a USB device or remotely using a PC

### Smartphone Support

### Browser Support

### PC Support

## RP-EyeP Guard NVR

### Perfect for a Range of Video Surveillance Applications

#### Residential Applications

Affordable, easy to use IP solutions that will easily cover your entire residence and surrounding area

#### Retail Applications

High resolution IP video captures clear images that can be used for pinpointing theft, vandalism and false liability claims while monitoring customer flow and counting people for better store management

#### Small to Medium Businesses

Expandable, networked solutions that can be accessed from both on and offsite for monitoring

### RP EyeP Cameras

#### Indoor/Outdoor, Weatherproof IR Camera

- Available in 1.3 Megapixel (1280 x 960) and 2 Megapixel (1920 x 1280) resolutions
- Weatherproof
- 30 IR LEDs for night vision (20m/65ft range)
- 3.6mm Fixed Lens
- PoE and 12V DC Power
- Adjustable mounting bracket simplifies installation

#### Indoor, Vandalproof Dome Camera

- 1.3 Megapixel IP Camera (1280 x 960)
- Indoor Camera
- Vandalproof
- 3.6mm Fixed Lens
- PoE and 12V DC Power
- Easy wall or ceiling installation

### Choose Your Solution

#### Indoor Solution

1 x RP EyeP Guard NVR  
4 x Indoor Dome IP Cameras

Easily add 4 more cameras, including a PoE switch (to power and connect cameras) to this package!

#### Outdoor Solution

1 x RP EyeP Guard NVR  
4 x Outdoor IR Bullet IP Cameras

Easily add 4 more cameras, including a PoE switch (to power and connect cameras) to this package!

RP EyeP products are sold individually and through pre-packaged offerings and other camera models are available. Please contact us or a reseller near you for more information about products, packages and pricing.

RP-EyeP Guard NVR Specifications	
Operation System	Embedded Linux™ OS
Interface	Web/Local GUI (IR remote control and/or mouse control)
Video Compression	H.264/MPEG4
Video Output	1 VGA, 1 HDMI
Video Input	Maximum of 8 Cameras (other models available, please contact us)
Alarm Input	3 Channels
Alarm Output	1 Channel
Storage	Internal: 2 Removable Hard Drive Bays External: 1 eSATA port
Ports/Network	1 Ethernet Port, 4 PoE Ports
Power Consumption	20W
Working Temperature	32°F ~ 131°F (0°C ~ +55°C)
Working Humidity	10% - 90%
Dimensions	4" x 8.75" x 5.75" (101mm x 222mm x 146mm)
Weight	3.5lbs (1.6KG)
Video Backup	USB Device/ eSATA Device/ Network
Standard Storage	1TB
Standard Warranty	3 Years (With 5 Year Extended Warranty Available)
